NF20Mesh - Fixed Wireless

WiFi Router
Setup Guide

How to connect

Setting up your new router

Skymesh routers arrive pre-configured. Simply plug in the supplied cables as per the diagram, switch on the new router and connect to it using the supplied WiFi password.

Note: This cabling setup is essential for an active connection. Please avoid changing the cabling setup below to prevent disconnection.
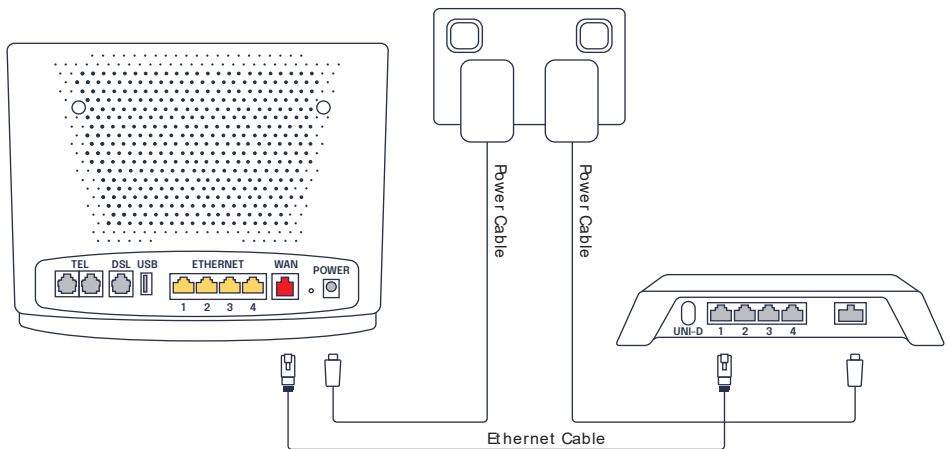

Netcomm NF20Mesh

Please plug into the red WAN port

nbn® Fixed Wireless NTD

Please plug into the UNI-D sent via email

Warranty

Your new router comes with a 3-year advanced replacement warranty for full peace of mind. More information on our warranty can be found at **skymesh.net.au/warranty**

Understand your nbn® NTD lights

Learn more about your nbn® NTD (Connection Box). If you are offline, please check the cabling setup on the 'How to Connect' page and restart your internet connection. If issues persist, please call us on **1300 759 637.**

Light	State	Meaning
Power	⬤	No power supply. All other lights will be off if the nbn® NTD has no power.
	🔴	nbn® NTD is operating on backup battery power and power is low (if a battery has been fitted).
	🟢	nbn® NTD has power.
	☀️ (green)	nbn® NTD is operating on backup battery power (if a battery has been fitted).
Status	⬤	nbn® NTD has no power or is in an unexpected state.
	🔴	A system fault is detected.
	☀️ (orange)	nbn® NTD is booting up/initialising.
	🟢	nbn® NTD is in test mode.
	☀️ (green)	nbn® NTD is operating normally.
Outdoor Unit (ODU)	⬤	nbn® NTD has no power or is in an unexpected state.
	🔴	nbn® NTD is offline.
	☀️ (red)	An error is detected.
	🟢	nbn® NTD is online.
	☀️ (green)	Network activity.
Signal Strength	⬤	nbn® NTD has no power or is offline.
	🔴	Low signal strength (this is not necessarily a service fault as factors such as local weather can impact signal strength).
	🟠	Medium signal strength.
	🟢	High signal strength.

How to restart your internet connection

If you're offline, please follow the steps below as they may resolve any potential faults. If issues persist, please call us on **1300 759 637.**

1   First, turn off your nbn® NTD (connection box) and your wireless router.

2   Wait for about **10 minutes.**

3   Turn your nbn® NTD (connection box) back on.

4   Wait another minute, then turn your wireless router back on.

Note: Please refer to the cabling setup provided on the 'How to Connect' page. This cabling setup is essential for an active connection.
